Fire Pumps

This year we are going to keep the pumps where they normally are stored. In the upper they are in front of the clubhouse, in the middle the pump is in the utility shed at the bottom of the ramp and in the lower it is located midway under the covered slips. Last year we learned that storing them inside was too hard for people to access. We have added a can of starting fluid attached to each pump with directions. (EZ-just takes a squirt) This will help start the engines in cold weather.

Dock Salt

We provide the salt in all 3 sections of the marina. Many areas are done by volunteer residents who need to get out early. Our staff gets here at 8am and we have a lot of area to cover. Your help is appreciated. In the upper it is under the 1st covered slip. In the middle it is located in the storage shed at the bottom of the ramp and in the lower it is stored in the garbage kiosk. Feel free to get a bucket full or a 40# bag by your front door. PLEASE DO NOT PUT SALT ON THE RAMPS. Salt corrodes aluminum.
